

Who needs to get vaccinated to be protected against measles?

I need to get vaccinated if

-  • **I'm a child over 12 months old (1 year)**
AND I've **never been vaccinated**
-  • **I'm a child over 18 months old**
AND I've received **only 1 dose of vaccine**
-  • **I've never gotten the measles vaccine**
AND I've **never had measles**
-  • **I've gotten the measles vaccine**
BUT I've **lost my proof of vaccination**
(medical certificate or blood test)
-  • **I'm under 45 years old**
AND I've received **only 1 dose of vaccine**
-  • **I'm under 45 years old**
AND I've gotten **2 doses of vaccine,**
BUT I got the **1st dose before I was 12 months old (1 year)**
-  • **I'm 45 years old or older**
I've received **only 1 dose of vaccine**
AND I **travel, or I work or am doing an internship in health or in the military**
-  • **A health professional has recommended that I get vaccinated**
